Risks - Flu Vaccine

December 4, 2014

USA – Flu and Other Vaccine Injuries and Death Payments – Report from the US *Department of Justice*.

Government Pays Compensation to 80 Flu Vaccine Injuries and Deaths

Reporting Period: June 16, 2014 – November 15, 2014

There were 180 cases of vaccine injuries decided. 134 cases received compensation, while 46 cases were denied.

This report clearly shows that the **flu vaccine is the most dangerous vaccine in America**. 134 cases were awarded settlements for vaccine injuries, with 79 of the settlements being for the flu shot, including **three deaths**.

Most of the settlements for injuries due to the **flu shot** were for Guillain-Barré Syndrome. Other flu vaccine injuries included: acute disseminated encephalomyelitis, transverse myelitis, shingles (herpes zoster), neuropathic demyelination, seizures, neuropathy, brachial plexopathy, rheumatoid arthritis, optic neuritis, and Bell's palsy.

You didn't read about this in your local or national news, did you? Here are copies of the actual report:
